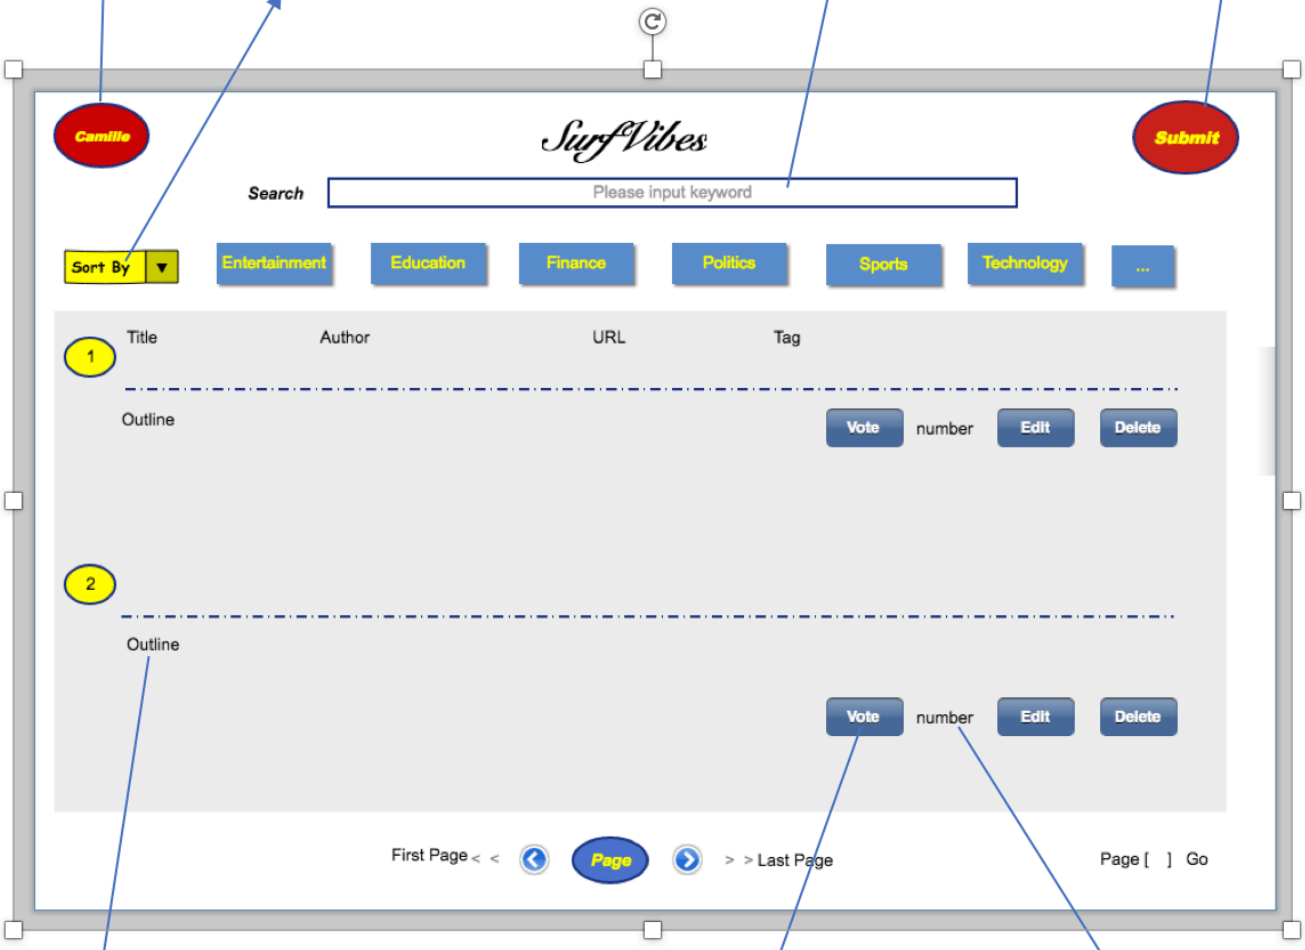
This button will randomly show a username.

This additional Searching feature will take any keyword existing on this site to get the dedicated results.

This Submit button is for user to post URL and related information.

Sort By area will sort the list of URLs as per different elements such as date, author, etc.



The Outline area will show the general idea of the related URL

Vote button initially shows Vote and turns into Downvote once it is clicked.

Number here means the total number of votes (number = upvote number – downvote number). It is possibly negative.
